# WHAT THE BUDDHA TAUGHT BY WALPOLA RAHULA

Foreword by Paul Demieville

Illustrated

"With the publication of this book a long felt need has been amply and competently supplied. For years the newcomer to Buddhism has lacked a simple and reliable introduction to the complexities of the subject. Dr. Rahula's *What the Buddha Taught* fills the need as only could be done by one having a firm grasp of the vast material to be sifted. It is a model of what a book should be that is addressed first of all to 'the educated and intelligent general reader . . .' and also to 'the reader who has some knowledge of what the Buddha taught and would like to go further in his studies.' Authoritative and clear, logical and sober, this study is as comprehensive as it is masterly. . . ."

—I. B. Horner, *Journal of the Buddhist Society*, London

Basing his book on the original Pali texts, which are universally accepted by scholars as the earliest extant records, the author—himself a Buddhist monk and scholar—has written, a direct, lucid, and faithful account of the Buddha's teachings. He removes a number of current misconceptions about Buddhism, and suggests how this philosophy can contribute to make modern life more meaningful. Its sixteen illustrations, bibliography, glossary, and index make this incisive volume perhaps the best guide to understanding Buddhism for the Western reader.
