III HISTORY OR LITERATURE?	151

on Racine

Translated by Richard Howard

"For the first time the tragedies of Racine have been treated as subjects of critical inquiry, not as examples of vowel manipulation, history, or a key to the life of the author.

"In the first section of this full-scale study, Roland Barthes presents Racinian Man in his native habitat, shows us what *homo racinianus* is like from inside the plays.

"The second section is a short study of the most famous performance of Racine in modern times, the Jean Vilar—Maria Casarès production of *Phèdre*.

"The final piece explains how the Racine legend began, how the cowardice and bad faith of the *universitaires* produced the cloudy and unreal *bourgeois Racine* of today."

—Richard Howard

Roland Barthes is the author of two volumes of critical essays, a study of Michelet, *Le Zéro Degré de l'Écriture*, and a forthcoming sociology of clothing. He teaches at the Sorbonne.

"...a work of great and courageous lucidity."—*Les Lettres Françaises*

"...sharp, brilliant, imaginative..."—*Le Monde*
