

**Sufism:  
Its  
Saints and Shrines**

**JOHN A. SUBHAN**

## *Sufism: Its Saints and Shrines*

Within the 400 pages of this book the author has "compressed much material starting with the early history of Sufism and ending with an account of its religious orders and some of its principal Saints in India." In the Foreword it is stated "the book claims no originality——(it) is an effort to place before English readers in systematic form, the varied and extensive, though often hidden, material on the subject of mysticism and Saint worship in Islam, available in Urdu and Persian literature." An instructive and interesting book written by one who has personal knowledge—confidently recommended.
