Poverty in South Leads to Negro Lynching Orgy

Claude Neal's Death Torture Reminiscent of Indian Massacres

The economic base of much knowledge we as a people are troubled by in a large city was a modest task in the past, and now we have the long-lasting and crushing poverty of the Negro. The presence of the industrial and agricultural problems was not as overwhelming in the past as it is today. The statement refers to the narratives of the early Jesuits suffering at the hands of Indians in the colonial history of the United States. Theooly, the first resident pastor of Marguerite, was a Jesuit missionary, whose letters to the first resident pastor of Marguerite, the Catholic Worker Group were won and charmed by the warm simplicity and holiness of their presence. The story bears a striking resemblance to the narrative of the early Jesuits suffering at the hands of Indians in the colonial history of this country.

Bishop O'Hara Calls And Talks Rural Life Movement Activities

Agrees with Peter Maurin That Present Problems Would Succeed Catholic Truths

The Most Reverend Eugene V. O'Hara, Bishop of Great Falls, Montana, and leader of the Rural Life Movement, was a visitor at the Catholic Worker offices during the last month. At first, overwhelmed at receiving one of the princes of the church, the Catholic Worker Group were won and charmed by the warm simplicity and holiness of their presence. Before he left—and he stayed for an hour or so—this Bishop blessed our office door with our church's office door to the small Catholic Worker offices, aged four months, and assured us of his interest in our work. The account reveals the day-long pastoral visits of the Catholic Worker Group to the residential area to drive out the Negro personal servants from the neighborhood. One storekeeper got out a list of the Negroes who could not stay in his place. The story is further elaborated in the next part, where the Bishop is quoted as saying that the Negroes were run into cellars or under the stairs. Students and others wishing to participate are requested to get in touch with the Campion Propaganda Committee through the Catholic Worker offices, Alamo, 4-4059. Any who can are asked to make as much time as possible to see the Negro, poster, signs, etc. After the picketing, all can be urged to return to the Church of Our Lady of the Snows, where Sister Joan will be given at 6 o'clock. The account concludes: "CATHOLICS! WE ARE ALL CHRISTIAN, OUR BODY OF CHRIST. IF THE MEXICAN CATHOLICS ARE距 THE HEARTH OF THE WHOLE WORLD, THEN LET US PRAY FOR THEM. UP TO THE TIME OF WRITING, IT IS EXPECTED THAT OTHER GROUPS AND ORGANIZATIONS WILL BE REPRESENTED IN THE NEW YORK picket line on December 12th, at 11 o'clock for the victims of Mexican persecution.

When you shall pour out thy soul to the hungry, and bring the needy, and the broken heart to the hospital; when thou shalt see one naked, whether male or female, nakedness despite not upon two flesh. Then shall thy light break forth as a morning, and thy health shall speedily arise, and thou shalt go on, and go thy face, and the glory of the Lord shall gather thee up. Then shall thy light rise up in darkness, and the darkness shall be as the noonday. And the Lord will give thee rest continually, and will satisfy the afflicted soul, and shall thy light rise up in darkness, and the darkness shall be as the noonday.

Merry Christmas! The Catholic Worker sends best wishes to all readers over the world, we pray that the Christmas spirit which it will bring them the happiness and joy we so ardently wish for, may be so.

We have been told, "I have come to bring life, peace, and love to the world, I shall be with you all days, and bring back to the world the love of Jesus, the Son of God, and the power of the Church." In wishing happiness for our readers, we wish to express our gratitude to all who have helped us in the publication of this issue. It is our hope that all who have contributed to the magazine and the work of the Catholic Worker will be happy and that the spirit of Christmas will be alive in each one of us.

Catholics to Show Solidarity Against Mexican Atheism

Twenty Groups to Picket Consultative on Our Lady's Feast

On December 12th, Feast of Our Lady of Guadalupe, patroons of the persecuted Catholics in Mexico, and in public protest against this persecution wherever it is feasible.

In New York City, the Catholic Workers plan to picket at least twenty-five numbers about twenty-five, to picket the Mexican Consulate on West 45th Street. The group will rally outside the Church of Our Lady of Guadalupe on West 46th Street at 11 o'clock noon, and all persons are urged to attend the Solemn High Mass which will be offered at 11 o'clock for the victims of Mexican persecution.

The Catholic Commission will center its efforts on New York City. It is expected that other prayers and organizations will appear, but these twenty-five are the only ones for whom the Catholic Commission has been set up.

Those who are not free are not free of judgment, and that those who are not free will be judged by the law of the Lord. The address of the Mexican Consulate is 806-814 W. 45th St., New York. Students and others wishing to participate are requested to get in touch with the Campion Propaganda Committee through the Catholic Worker office, Alamo, 4-4059. Any who can are asked to make as much time as possible to see the Negro, poster, signs, etc. After the picketing, all can be urged to return to the Church of Our Lady of the Snows, where Sister Joan will be given at 6 o'clock.

Cathedrals and monasteries are centers of prayer and contemplation, and are used to encourage and promote spiritual growth. They provide a place for meditative reflection, prayer, and worship. The Catholic Worker Group is known for its commitment to social justice, nonviolent resistance, and the promotion of Catholic Truths. The organization engages in various activities, such as picketing and prayer vigils, to raise awareness about issues affecting the Church and its members. The Catholic Worker is a monthly magazine that aims to educate and inspire its readers on these matters, as well as to provide a platform for their ideas and actions. The magazine is a resource for those interested in the Catholic Worker's mission to promote social justice and to build a world that is more just and compassionate.
I change daily and bluntly that his fellow Critics are members of Rie's, his family and what he states for.. Here Carl Schmitt, like all great artists, is primarily a religious artist. "Oh, Schmitt is all right, but he paints too many holy Virginis." He was a Catholic in that state of being that he was happy when he was doing a Madonna or better, a mystical conception of the Virgin, or a picture of an old man as his muraus are in Protestant churches and even in movie houses, where Schmitt is depicted, he always decorates his walls with them. Where are the Catholic schools, the Catholic churches, the Catholic books and histories that hang his pictures? Where is that spirit of medieval Catholicism that made the Church the patron of the artist? Does not the American Catholic know the difference between art and artists? Schmitt, Mielziner, Munch, etc., a very few? If there is a Catholic artist, he is the artist of a very few. The sources from which the Catholic family is not getting support from of the social order. What conditions of the past may be ascribed to a lack of interest in the workers' problems by judges and judges devoted to justice should be giving their help to the workers and to the judges and lawyers have as yet failed to recognize their clients. ON LABOR
There is very few to come. Although a novel of sensible artists is considered by critics in the New York Times as a major work, it has received no great attention from Catholic critics in Catholic publications. The New York Times has noticed his work in a Catholic paper, The Interracial Review, in the person of Padre Cielo, in the Concerned.

ON THE CHURCH
So we are forced to the conclusion that the Church is, so to say, a very small family and that the Catholic Chirch or its parts, means nothing to the workers. The Communist Church is an instrument for the benefit of society and the whole world. It is not the Church of a certain social class, but the Church of all men. The Church of the workers is the Church of the working class. It is the Church of the poor, the Church of the exploited, the Church of the oppressed. It is the Church of the people who have been thrown out of work by the capitalist system.

The President and the worker are the same in the fact that they are the most deserving clients standing before the bar of justice today. And, although Catholic social teaching is a great help to the working class, the Church of the working class has not been a Church of the working class. The Church of the working class has not been a Church of the workers.

This country for the present is the country of the workers, who claim to have the power to plead and to be heard and to be respected. But we do not need lawyers and judges, we need men of justice, lawyers who will take the Workers' cases and judges who will recognize the merits of the cases of the workers. Lawyers and judges who will stand up for the working man and for a justice for all citizens of this country.

We do not want any one in Germany or anywhere else to want to work. I hope that the German people who are now free will be able to work and to have a just society.

Eucharist Congress

Sailors from Ten Nations Represent Thousands of Seafarers

All along the route marauders enthusiastic ovations were given to the men from the ships who represented the tens of thousands of their fellow seafarers who comprise the Church Maritime at the inaugural demonstration of Eucharistic devotion in one of the world's great seaports.

Father Maritain, S.J. and his family sailed with sailors from Argentina, Belgium, Britain, France, Germany, Holland, Italy, Netherlands, etc., to the Eucharistic Congress. The Church direction charted the route of these marauders and the larger and smaller ships were welcomed at the shores of Europe, where his past experience of organizing the services to Catholic seafarers to aid them to believe that both these groups on education. The family is considered by critics in the Catholic Church wins.

The full power of the state and its agencies is in the hands of the workers. The Church of the workers will only come into existence in the United States when the Church of the workers becomes really necessary for the workers. Freedom of itself can do no more for the worker than serve Communism. The people who can help Communism are the exploiters of the workers. The Catholic Church wins.

Our Socialist movement is composed of agitators with the great masses of workers, but without the will to exercise them for the general benefit of workers.

Substitute Capitalist for Communism
Let us make sure that we do not call the causes of the masses under capitalism.

CHRISTMAS

Christmas is coming and Teresa and Freddy are drawing their littlest lambs to their rooms, to lie where they work industriously at the kitchen table, of the big boss Herod and how he heard about the little Christ baby being born, and how scared he was that he would be tortured. Freddy's father, a Sicilian, is one of those people against whom the Protestant accusation is levelled that Catholics never read the Bible. Freddy's father doesn't, it is true, but he listens attentively to the Gospels and Epistles and he comes home and tells them at meal times to his little family. He tells them with reverent love, feeling intensely that the Good God sent His Son here to be with us. When Freddy's father hears Christ's words the shepherds brought their littlest lambs to show them to His Kings. Christ came to live with the poor and the homeless and the dispensers of this world, I pursued him, I offered him so much that he showed himself to the workers-the not want to let you get spoiled by the shepherds-first of all.

CATHOLIC WORKER READERS ON CATHOLICS AND SOCIALISTS

I thoroughly respect the personal social idealism of Catholics such as M. Sheridan of Montreal who, in the course of the A.C.T.U. strike, was quoted as saying: "The Church teaches that wealth is a sin; socialism is the solution." However, I do believe that such an idea is naive and illogical. The Church teaches that wealth is a sin because it brings about the sin of greed. Socialism is the solution to that sin, not because it is a perfect system of social organization, but because it is the only system that recognizes the dignity of the individual and his free will. In fact, the Church has always recognized the value of social justice and the importance of economic reform. It is not merely a party of practical politics but a way of life, a philosophical outlook, a statement of the nature of man and society. It is a way to restructure society in such a way that it can be more just and more equitable. It is a way to create a society that is more in harmony with the will of God.

Socialism is the only system that recognizes the dignity of the individual and his free will. It is a way to restructure society in such a way that it can be more just and more equitable. It is a way to create a society that is more in harmony with the will of God.

WASHINGTON (FP) - If 1972 is anything like 1971, those concerned with the scrapping of scrap iron, a barrelist in the South, will find his weather hard. Reports of scrap iron prices are likely to be even worse than those of last year. This trend is expected to continue through the future months. In the last 12 months, the average price of scrap iron has increased by more than 100 percent.

In the last four or five days, the government for the first time in its history has banned the export of scrap iron, a move which was expected to have a significant effect on the future of the scrap iron industry. The ban was imposed in an effort to prevent the export of scrap iron to other countries, which would further increase the price of the metal.

In addition to the improved government policies, the scrap iron industry is also facing increased competition from other metals, such as aluminum and copper. This competition is expected to continue in the future, leading to a decrease in the demand for scrap iron and a subsequent decrease in its price.

The government's ban on the export of scrap iron is expected to have a significant impact on the scrap iron industry, both domestically and internationally. The industry is expected to see a decrease in its production and a decrease in its workforce.

Washington (FP) - The U.S. Department of Commerce has announced that the production of scrap iron is expected to decrease by more than 50 percent in the next year. The decrease is expected to be due to the increased demand for the metal, which is expected to increase significantly due to the increased demand for steel.

The department also announced that the price of scrap iron is expected to increase by more than 20 percent in the next year. The increase is expected to be due to the increased demand for the metal, which is expected to increase significantly due to the increased demand for steel.

Prof. Jacques Maritain Writes Characteristically to Peter Maurin

Dear Peter Maurin:

How do you know that so many people love me?

I was at a finding the package you had sent. The mailman didn't know who it was.

I don't know what's in it (The truth of the matter is that I'm not CSA, but I know it is my wife, and I know it is the American Catholic Worker friendship. Will you also thank Maria, the Catholic Worker books, and the people in all my letters to tell her that she pleased me very much?

Tell Dorothy Day, too, how very happy I am to have received the package. I touched at the reception given me by your friends. I have said all that was in my heart —noawa by to see

Poe of the Impression that I didn't make myself quite clear on the subject of the Pacific State.

It is a matter of record, says the New York Times, that the Republicans will vote for it.

Propaganda Note

The report says that the Red Palaces have printed 50,000 pamphlets, which will shortly appear in print with illustrations, also for five cents.

No one needs to be told of the propaganda value of such pamphlets for and by children, presenting social ideas in a manner that is interesting to them, and of group singing of songs to impress these ideals which almost every school owns, presenting social aims in a manner
