Dear Tom,

The apocalyptic symbols deepen. I was shocked by this. But now the mass media broadcast it - even if only on page 12 - and next week several more desperate people will be doing it, with more clinical reports to follow.

Did you see the note in the Nov-5 Commonweal? "At this writing, the ^{Catholic} Worker is planning a rally at which fifty or more men will burn their draft cards. 'They're hit, man,' said Chris Kearns of the Worker. 'We've never felt so much power.'"

Please write on these things. We need your vision.

Father Dan wrote that "the fallout was much less severe than anticipated" on his activities of the last weeks.

There is an utterly wild note in the air, in the midst of business-as-usual and intensified by the normal insanity.

Peace,
Jim
