Dear Mr. Terton - J Laughlin tells me you do not want to be identified with any group, thru the publication of your article, and I hasten to assure you that our new JOURNAL is not being published by any particular group or grouping of writers, and that we have no political affiliation, being completely independent in every way. The only bond between the articles in our first issue is a humanitarian one.... I hope this will allay your doubts! We are eager to use your CHILD BOMB. Yours most faithfully
- Lawrence F.
